

## RoHS Directive statement

We certify that our alloys do comply with RoHS European Directive's requirements **2011/65/UE**, which restricts the use of some hazardous substances in electrical and electronic equipment.

In particular :

- ✓ Some of our alloys content lead, but the weight percentage does not exceed the Directive's maximum authorized limit for Copper Alloys (< 4 % ),
- ✓ Mercury, hexavalent chromium and cadmium are not among our additives, but may possibly be present as traces.
- ✓ Our products do not content Polybrominated biphenyls (PBB), neither Polybrominated diphenyl ethers (PBDE) (and among them Deca BDE).
